Brandon Wilson

Baltimore, MD | 443-379-1331 | wilsonbrandon.dev@gmail.com | Portfolio: iambrandonwilson.com

Clearances

Active Secret Security Clearance - 2024 - Current

Education

Bachelor of Science in Computer Science | ***GPA: 3.75/4.0*** | ***Magna Cum Laude***
Specialization: Web Development
Florida Southern College, Lakeland, Florida | *Graduation: May 2025*

Technical Skills

Languages: *JavaScript, Java, Python, PHP, HTML5, CSS3, SQL, Dart*
Frameworks & Libraries: *React, Vue.js, Node.js, Express, Laravel, Bootstrap, Flutter*
Cloud & DevOps: *Microsoft Azure, AWS, Firebase, Netlify (CI/CD), Git, GitHub, Docker*
Databases & Tools: *MySQL, SQLite, Power BI, Microsoft Power Apps, Microsoft Excel, Visual Studio, Cursor*

Projects

Reservoir | Senior Project | *Fall 2024*
- Built a full-stack AI-powered media recommendation platform using Laravel, and SQLite.
- Developed dynamic UI components, implemented secure authentication, and integrated REST APIs.
- Contributed across the SDLC, including planning, testing, documentation, and version control.
- Delivered personalized movie playlists, enhancing user engagement with AI-driven recommendations.

GoalScape | Personal Full-Stack Developer Project | *Summer 2025*
- Developed a full-stack web app with React, Express, MySQL, Flowbite, Docker, and AI integration to track, visualize, and manage personal goals.
- Built CRUD functionality, interactive visualizations, and AI-driven suggestion engine.
- Designed a responsive, user-friendly interface with accessibility considerations.
- Enabled users to monitor progress efficiently and receive actionable AI-based insights.

Work History

Self Employed | Freelance Software Developer | *Aug 2025 - Current*
- Developing full-stack web applications for multiple clients using React, React Native, Node.js, Express, Python, MySQL, and Stripe.
- Implementing web scraping automation for live sports data, Stripe payment flows, and booking workflow architecture.
- Building front-end components, backend APIs, and database integrations to create scalable client solutions.
- Contributing to the planning, prototyping, and initial deployment phases, preparing platforms for future expansion and operational use.

Independent Contractor | Field Engineer | *Oct 2025 - Current*
- Supported a federal CCTV modernization and documentation effort across cleared facilities, focused on verifying and documenting Inside Plant (ISP) and Outside Plant (OSP) camera infrastructure.
- Conducted detailed field surveys to identify, label, and trace camera endpoints through racks, decoder rooms, and fiber distribution panels (FDPs).
- Managed Excel-based tracking systems for weekly deliverables, escort schedules, and validation.
- Implemented structured labeling and data-management standards while collaborating with project leads, escorts, and contracting teams to ensure documentation accuracy, consistency, and operational readiness across secure environments.

USF Institute of Applied Engineering | Research Support Assistant | *May 2024 - Jan 2025*
- Assisted in technical and research-focused assignments for Department of Defense (DoD) projects under grant-funded programs, applying analytical and system-level thinking to real-world defense challenges.
- Co-authored and presented team-led research findings to DoD stakeholders, translating complex results into actionable insights.
- Participated in field experimentation events to test and evaluate commercial technologies for potential integration into military and government systems.
- Built internal tools using Microsoft Power Apps and Power BI to streamline data analysis, reporting, and dashboard generation for engineering teams. These tools supported the delivery of technology-driven solutions in fast-paced, high-security contexts.

Honors & Awards

Chi Alpha Sigma Honor Society • Magna Cum Laude (3.75 GPA) • Athletic Director's Scholar-Athlete • CSC Academic All-American (2023–2025) • NCAA All-American (16×) • Scholar All-American (2022–2025) • Swim Team Captain (2×) • SAAC Representative • President's List (3×) • Dean's List (5×)
